4. **PUBLIC COMMENT:** Discussion ensued about the signs @ the Recycling Center. Could the signs be a little more specific. (Can we maybe put pictures or descriptions of what in fact can be recycled vs what can't.)

Greenway Project – Construction management out to bid.

Discussion ensued about having a stop sign at Arnold Terrace but wanted to see if the Engineer can approve it.

Any updates on the lights at the Field over by Valley Street.

CCTV – Approved Purchase Order. Any notifications will be made public to the residents.

5. REPORTS

- Water Utility – Due to the ongoing drought, we are looking to cutback on water consumption. Not mandated but recommending to the residents. Need to keep our reservoir levels high for fire safety.

We have a plan for lead line replacements; the major portion is identifying the compositions of every lead line we have in the village.

If it's lead then the customer is notified that it needs to be replaced. Also looking to replace the main on West End Road and we are currently applying for funding for that project. Any recommendations on water usage(watering lawns, plants, etc) will be posted on website.

- Public Works – Signage is not final. A new fence will be going up. Playground mulch will be delivered soon.

Beautification to downtown area and all municipal buildings.

Signage in town has started, residents alerting us some signs could begin to fade and have been looked at and fixed. Signs will receive brightlights.

- Engineering – Redmond Road FEMA Awarded.
Sherman Road Re-Construction plans are being finalized.
Mayhew Ct FEMA project in design.
Emergency work: Intersection of Meeker & Meadowbrook Place;
Work Began: 7/18/22
Work Ended: 7/20/22
- JMEUC: Working on next phase of funding.
